Setup Guidelines For Display Printing

File Formats

Preferred formats: PDF, EPS, TIF

Also Acceptable: AI, ID, JPG

Fonts

When Possible, all fonts should be rendered. Otherwise, all fonts must be included with submission.

Color Management

CMYK profile: SWOP coated 20%

RGB Profile: Adobe RGB (1998)

Gray Scale Profile: Grey Gamma 1.8

Spot Colors: No spot colors are acceptable at this time.

Layout Size

All raster images must be 300 DPI.

Final size less then 11 X 14	Layout at full size
Final size 22 X 28 or smaller	Layout at 1/2 size
Final size larger then 22 X 28	Layout at 1/3 to 1/4 size

Our printing department will make every effort to ensure the best possible quality, however, we are not responsible for any errors or reduction in quality resulting from impropper or missing fonts; impropper color management or the use of spot colors; or images below minimum useable resolution. If you have any concerns, please alert us so that we may more carefully review your project prior to production.
